# All Bumper Plate Kilograms

## ABOUT THE PRODUCT

It is made of rubber with high abrasion and tear resistance. Since it uses high quality rubber raw materials, it does not contain any smell that will disturb the users.

Metal hubs are chrome plated and rust resistant.

Ideal for a bar or loading a machine, and they are also perfect for performing workouts and exercises as resistance training with a single plate. These solid plates get straight to the point of Olympic lifting, with a simple design, moulded weight indicators and the endurance to last, lift after lift. Made from solid rubber, their low bounce gives practicality to a toughness that will stand the test of time.

## FEATURES

## ABOUT THE PRODUCT

You shouldn't have to worry about losing your weight plates during a lift. Keep your weight plates on the bar and off the floor with a pair of clips. These clips securely and easily snap onto bars. They feature quick and simple unlatching for ease of adding/removing weight plates. The clamps tightly hold all weight plates onto bars. They're made to fit on the Olympic standard size 2" diameter bar.

## FEATURES

- ✓ Genuine Lock-Jaw Bar Clips
- ✓ Suitable for all 50mm / 2" Olympic Bars.
- ✓ Handles are made from Rubber.
- ✓ Quick and easy to clamp and release for fast change over of plates.
- ✓ Secure the plates(weights) in place on each end of the bar.
